

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently Amended) A kit for delivery of a composition into an intraosseous space comprising:
 - at least one cannula;
 - at least one stylet insertable into [[a]] the cannula and being movable therein;
 - at least one catheter having a high-porosity-tip that ~~are~~ is insertable into the cannula, wherein said porosity is about 60% to 90%; anda system for delivery of aliquots of said composition into the intraosseous space via said catheter;
wherein said composition comprises a restorative or viscous injectable material.
2. (Original) The kit of claim 1 wherein the catheter is divided into graded markings.
3. (Original) The kit of claim 1 wherein said high-porosity tip comprises polylactic acid.
4. (Original) The kit of claim 1 wherein said high-porosity tip is partially coated with non-porous or semi-porous material.
5. (Original) The kit of claim 4 wherein said material is a ceramic polymer or metal.
6. (Currently Amended) The kit of claim [[5]] 4 wherein said material is calcium phosphate, PLLA, or titanium.
7. (Original) The kit of claim 4 wherein said material is biocompatible or resorbable.
8. (Original) The kit of claim 1 wherein said high porosity tip is biocompatible or resorbable.

DOCKET NO.: OVIT-0252
Application No.: 10/654,543
Office Action Dated: October 2, 2006

PATENT

9. (Original) The kit of claim 1 further comprising a catheter with a plurality of apertures near the distal end.

Claims 10-55 (Cancelled)

56. (New) The kit of claim 1 wherein the composition comprises synthetic bone void filler.

57. (New) The kit of claim 1 wherein the composition comprises polymethylmethacrylate.

58. (New) The kit of claim 1 wherein the composition comprises a hydrogel.

59. (New) The kit of claim 1 wherein the composition comprises replicated bone marrow.
